OVERVIEW

If you have an undergraduate degree in accounting and are ready to build technical knowledge to thrive in today's ever-evolving accounting industry, this program will take you there.

This program is AACSB-accredited and will prepare you for the CPA exam. Eller students typically have a 68% pass rate on their first attempt, which is 13% above the national average.

Prep for a career in professional accounting through a program ideal for students with diverse professional and academic backgrounds.

You'll also have the opportunity to take courses that prepare you for the CPA exam. Eller students typically have a 68% pass rate on their first attempt, which is 13% above the national average.

Well suited for working professional students and those with an undergraduate background in accounting, our online program can be completed in a year of full-time study or two years of part-time study.

This program will prepare you for the CPA exam and Eller students typically have a 68% pass rate on their first attempt, which is 13% above the national average. No undergraduate or professional experience in accounting is required for admission.

OVERVIEW

In this STEM-designated program, you'll maximize your potential in any field as you learn to analyze data for trends and patterns that offer useful insights.

You will gain the data-centric decision-making skills employers value in today's tech-forward, global economy.

Develop a foundation in the principles and practices of entrepreneurship and innovation with the skills and tools you need to lead as an entrepreneur, whether in your own startup or a corporate setting.

You will emerge ready to confidently lead and make a lasting impact.

In this STEM-designated program, establish a foundation in the principles and practices of finance with the advanced analytical and technical financial skills and tools you need for an exceptional finance career.

You will also be well positioned to become a CFA or CAIA.

Develop your management skills and your understanding of finance, marketing and economics driving the healthcare industry.

This online program is a valuable career step for current and prospective practitioners, administrators and executives.

In this STEM-designated program, develop a deep understanding of how consumers think and how to reach them, and make yourself an exceptionally prepared job candidate while you're at it.

You will learn from world-class faculty who bring a global perspective to the table.
