

Eller MBA

Dual MBA/MSF (Master of Business Administration / Master of Science in Finance)

The student must be admitted to both the MBA program and the MSF program. University policy on dual degrees stipulates that a maximum of 50% of the credit hours for the shorter program may be counted toward both degrees. Therefore, the MBA/MSF degree requires a total of 68 units: the 50 units of MBA course work, to include 18 units of Finance electives, plus an additional 18 units of required Finance courses.

In summary:

MBA Degree requirements: 50 units of course work
 MSF Degree requirements: 36 (30 units of coursework plus a 6-unit summer project or 36 units of coursework)

However: 50% (18 units) of Finance course work can be counted toward the MBA

Therefore, to receive the dual degree, the following are required:

- For the MBA degree:
 32 units of course work taken from the MBA core and elective curriculum
 18 units of Finance electives (not including FIN 510, FIN 525, or FIN 909)
50 units: meets requirement for the MBA degree
- For the MBA/MSF degree: In addition to the above,
 12 units in Finance (not including FIN 510)
 6 units of MSF Project course work (FIN 909) or additional units in Finance
18 units

Total Units: 68

The following list identifies the Finance courses available to meet the 36 units for completion of the MSF degree program. Specific courses required for the MSF degree depend on the chosen track of study—Corporate Finance, Fixed Income, Investment Management/CFA, or Real Estate Finance (<https://msf.eller.arizona.edu/tracks>). Those courses identified by a diamond (◊) will not apply to the MBA degree.
