Prerequisites Required at the Time of Application

- Minimum 2.75 GPA (based on 12 or more UA units) at the time of application. If student has attempted less than 12 UA units, a recalculated transfer GPA is used.
- Minimum of 36 units complete at the time of application and 50 complete by the end of the application semester

- At least one Accounting course complete and the other in progress/complete
- Last course in the English Composition sequence must be complete or in progress
- Remainder of Foundation courses must be successfully complete by the end of the application semester
Criteria Considered for Admission

Professional Admissions to the Eller College of Management is based on the following criteria in comparison to every other applicant in the application period:

- Cumulative GPA (the minimum GPA of 2.75 does NOT guarantee admission)
- Performance and GPA in Foundation courses (all attempts at Foundation courses will be averaged and repeated course attempts should show considerable improvement)
- Cover Letter, Resume, and Interview demonstrating leadership, work experience, community service, involvement in extra-curricular activities, and intellectual and interpersonal abilities that contribute to the College’s academic and co-curricular programs.

Important Points

- Professional Admission into the Eller College of Management is a competitive and selective process
- A $55 application fee will be charged to all students submitting an application. For current University of Arizona students, this fee is charged to the student’s Bursars account. Students not yet admitted to the University must pay the $55 application fee online once their eligibility is confirmed (more information shared in advising appointment).
- Students may only apply for Professional Admission two times (students who are denied on their first attempt have the option of reapplying in a future semester; students who are denied on their second attempt must look at other academic options). Moreover, students who decline their admission prior to starting their first semester of the upper-division curriculum must reapply in a future semester.
- Students who are on Academic Warning/Probation at the University of Arizona at the end of the application semester will lose their Professional Admission. Students must be in good academic standing in order to apply for Professional Admissions and start the professional phase.
- The Eller College of Management charges a differential tuition fee each semester for the professional program

Cohort Options

**Traditional Cohort:** *(Available for students applying for Spring and Fall semesters)*

Students complete their cohort in the regular Fall/Spring semesters. Majors available in this cohort include; Accounting, Business Economics, Business Management, Finance, Management Information Systems, Marketing, and Operations & Supply Chain Management. At the point of Professional Admission, students will be assigned to either the "Sage Cohort" or the "Silver Cohort", which will determine the scheduling of their first semester cohort classes. Sample schedules can be found here: https://eller.arizona.edu/programs/undergraduate/advising/registration/bsba. Students who have concerns about time conflicts should speak with an advisor during the application process. Students will also need to submit appropriate documentation of their time conflict (ie, work schedule, childcare arrangements, etc.) as part of the submission of their materials. All requests will be considered, but we cannot guarantee that all students will be accommodated.

**Summer iCourse/Hybrid Start Cohort:**

Only available for students applying during the Spring 2022 application to start in Summer 2022. Begin cohort at the UA Summer with both iCourse and Hybrid courses and remaining curriculum afterward is under the Traditional Cohort model on Main campus. The iCourse/Hybrid Start offers balance and flexibility for your future semesters.

**Online Cohort:** https://eller.arizona.edu/programs/undergraduate/academics/online

Students complete their upper-division coursework fully-online, from anywhere, anytime. Business Administration and Accounting are the only majors offered in the online program. Due to the pace and interdisciplinary nature of the Online majors, students will not have the option of changing their Eller major or adding an additional Eller major. The only exception is our Entrepreneurship major which can be added after completing the online curriculum. Available for students applying for Spring, Summer, and Fall semesters.

**BA Economics Advanced Standing**

The Eller College of Management is also home to the Bachelor of Arts in Economics, which has a selective Advanced Standing process. Learn more here: https://eller.arizona.edu/programs/undergraduate/admissions/ba-economics

Professional Admission Interview Preparation

Professional Development Competencies Requirement

The Eller College of Management expects all students accepted into the upper-division cohort to demonstrate high professional competencies in a Cover Letter, Resume, and Professional Interview. Eller College Associates assess the Cover Letter, Resume, and Interview for each applicant as part of the overall interview experience. Students who do not demonstrate a standard competency level in each of the three areas will be required to participate in a workshop and/or Career Coaching appointment and submit a revised version. Students will be notified via email at the time of admission if they have not met a standard competency. Students who do not fulfill their Competency workshop and assignment requirement will have their Professional Admission revoked.

Cover Letter (1 page)

Please write a Cover Letter for your Professional Admission application. In a typical job application, you would write the letter based on the position description as an introduction to your Resume. Below is a statement that equates to a job description for the Eller College professional program. Please use this description when developing your Cover Letter:

The Eller College of Management is seeking talented, highly motivated, and hardworking individuals committed to excellence and sound ethical behavior. Candidates should demonstrate critical thinking and communication skills, work well in collaborative environments, articulate the importance of business and technology in today’s global marketplace, and understand their career goals and professional development needs. Candidates should use personal examples from a variety of experiences to highlight their unique contribution to the professional program cohort.

You should write about your accomplishments, goals, and strengths as a candidate for the Eller College professional program. The best letters are unique, help the reader understand your motivations and interests, and provide examples or evidence to support your assertions. Try to avoid generic statements. Instead, talk about yourself, your accomplishments thus far, and plans for the future. Show the interviewers that you are unique and give them insight into the real you.

A Cover Letter should also contain proper grammar and spelling and use clear and direct words. Cover Letters are usually three to four paragraphs in length, and no longer than 1 page, in 10-12 size font.

Signing your Cover Letter – choose one of the options below

- Use a free online e-signature site (i.e. DocuSign) to create an electronic signature
- Sign your name on a blank sheet of paper, scan your signature, save the image as a jpeg, and then insert the signature into your Cover Letter (best to save it as a PDF)
- Print out your Cover Letter, sign it, and rescan the entire letter (best to save it as a PDF and not as a JPEG)
- Type your name in cursive font (not ideal, but it will suffice for Professional Admission purposes)

Please upload your Cover Letter and Resume as PDFs into your eSMS admissions portal—this ensures that the formatting will not get messed up if your documents were reformatted on a different system.

See Cover Letter template next page.
Dear Eller College Admissions Committee:

The OPENING PARAGRAPH should explain: What major you’re applying for, the reason why you selected this major, and how the selected major relates to your future career aspirations.

The MIDDLE PARAGRAPH(s) should: Highlight a specific instance from your co-curricular activities, work experience, and/or accomplishments. You should highlight transferrable skills from a specific experience and explain how those are applicable to what you are applying for. Consider the following:

- What have you learned in through the experience you’ve highlighted?
- What transferrable skills have you gained from this experience?
- Summarize and relate how the experience and skills you outline above apply to your major/ being admitted to Eller.

Paragraph 2 (Optional): Be sure to diversify this experience and set of skills from the one outlined above in Paragraph 1. Choose a different experience and skill set. Consider the following once again:

- What have you learned in through the experience you’ve highlighted?
- What transferrable skills have you gained from this experience?
- Summarize and relate how the experience and skills you outline above apply to your major/ being admitted to Eller.

The CLOSING PARAGRAPH should:
Give some compelling yet specific reasons why you should be part of the Eller College. Consider the following:

- What can you contribute to this community? What makes you who you are?
- Sum up how you will be an effective member of the Eller College.

Sincerely,

Your Signature

Your Typewritten Name (You should leave 4 spaces between your closing and your typewritten name.)
Other considerations for your Cover Letter

Make reference to your resume, but do not simply repeat information; fill in between the lines of the resume in order to help the reader assess your skills and abilities related to their individual needs. This is the perfect time to make the interviewer want to read your resume!

Be specific, but concise; the cover letter should never be longer than 1 page.

Resume (1 page)

A professional, high-quality Resume is a necessary step for your career. A good Resume cannot be written in just a few minutes; it requires in depth thought and analysis. The Resume is a summary of your experiences, not your full-length biography. It is not simply a list of jobs held and duties performed; you must create a Resume that emphasizes your accomplishments and achievements. Communicate what skills you have to offer, not just what you have done. For Professional Admission and Eller College recruiting events, you should develop a one-page, chronological format Resume.

We have included a sample resume (page 8) that you are welcome to use as a guide as you develop your own personal resume. The chronological Resume presents experience and education in reverse time order (most recent experience first). The format utilizes visuals, such as underlining, bolding, italics and bullets to make items stand out. If you feel you can better express yourself in a different format, you are welcome to, but it should maintain the standards of being easy to read, well-spaced, and incorporate the suggestions below.

Resume Suggestions:

- Resume should be neat and error free – no spelling, grammar or typographical mistakes
- Limit Resume to one 8 1/2” x 11” page
- DO NOT use a MS Word template to create your Resume; if you use UA Resume Builder, download your Resume into Word to format correctly
- Use 10-12-point font (9-point font minimum); Times New Roman or similar font preferred
- Use even margins, minimum of ½ inch on all sides
- Consistent use of punctuation, i.e. periods at the end of all bullets or none
- Use clear, simple, positive wording
- Use bullet points—skills and information should be easily identifiable, not buried in lengthy paragraphs
- Limit use of abbreviations/acronyms
- Use "action" words and action-verb phrases
- Omit all pronouns and unnecessary articles such as "a," "an," "the"
- Avoid the use of pronouns ("I" and "me")
- Use consistent tense throughout (present tense for current positions; past tense for previous work)
- Include month and year when you are including dates in your experience section; use consistent format
- Always include degree and current major in the Education section
- Encouraged to include cumulative GPA if 3.0 or above
- Do not include personal statistics (age, weight, marital status, etc.) on Resume

Interview

The Professional Admission interview is a 25-minute interview with up to two business professionals. The interview will be virtual via Zoom video conferencing software with professionals who either reside in or outside Tucson. There are several components of the interview, which include:

- Your One-Minute Introduction or Elevator Pitch
- Your educational and professional goals
- Multiple behavioral interview questions relating to the Eller College’s learning outcomes
- Diversity and Inclusion & Values Case (see page 10)

One-Minute Introduction or Elevator Pitch (“Tell me about yourself”)
An elevator pitch is a brief statement to quickly and simply tell someone about how your interests and experiences have led you to this point, and about your future goals.

Example:
Past:
“My name is Taylor and I’m from San Diego, California. I decided to come to the University of Arizona because touring the Eller College and learning all about the programs that are available made it clear this was the right fit for me. I have always had a passion for working with others. I have been involved in volunteering with various non-profit organizations, have played soccer, and ran cross country throughout most of my life”.

Present:
“Since coming to campus I have become an active member of the UA community. I am currently developing my leadership skills through pledging a business fraternity and am gaining professional experience through my on campus job at the UA Bookstore as a Social Media Coordinator. Being so involved on campus has taught me to effectively manage my time and prioritize my responsibilities.”

Future:
“I’m planning to major in Business Management because I would love to combine my passion for volunteering and working with others to eventually manage a non-profit organization within the San Diego Community. I also chose Management as my major because I can adapt the skills I would gain from this degree to other areas of business if my career goals change.”

To begin building your Elevator Pitch consider the following:
Past:
• Your name? Where are you from? Why did you come to the University of Arizona/Eller?
• How have your background & experiences prepared you for Eller/the major you are applying for? Or how have they inspired interest in Eller/the major you’re applying for?
• What skills have you learned through your background and experiences?
Present:
• What are you majoring in? (Pre-Business)
• What are you involved with outside of class? (Work, Clubs, Volunteer Organizations, etc.)
• What are 2-3 relevant accomplishments since you’ve been in college?
Future:
• What do you plan to major in?
• What do you want to do after college?
• How do they match with your top interests and motivators?

Behavioral Interview Questions

The behavioral Interview Questions are built around topics related to the Eller College’s learning outcomes. Students are encouraged to answer using the STAR method of interviewing, in which they focus on the Situation, Task, Actions, and Results.
Campus Closet Resource
Campus Closet is an ASUA service organization that collects and then distributes - free of charge - gently used or new business, professional, and casual clothing to University of Arizona students, faculty and staff members who cannot acquire the items otherwise. These visitors then go on to use their free clothing items for obligations such as interviews, internships, professional events, and/or daily wear. [https://asuatoday.arizona.edu/what-we-do/campus-closet](https://asuatoday.arizona.edu/what-we-do/campus-closet)

VALUES CASE

During the Professional Admission Interview, you will be expected to reflect upon and articulate your thoughts on the following values case. As you prepare for this portion of the interview, we value the interactive exchange of ideas, and encourage you to discuss this situation with friends and family as you explore how you would approach the situation. Students will be expected to demonstrate their thinking process during the interview.

---

**Time Reporting as a Consultant**

You are a first-year analyst at a consulting firm and just finished your first month on a project working for one of the firm’s most important clients. You are the most junior person on your engagement team, but you are learning a lot from the other analysts and your manager. As with most consultants, you are expected to track the hours you work on the project, and report those hours each week.

Just now, you received an email from your firm’s Human Resources department reminding all its consultants that federal labor law states that employees report all hours worked, especially overtime (which is more than 40 hours a week). Last week, you worked more than 40 hours on the project, but your manager told you that there is no room in the budget for overtime, and asked you to report working only 40 hours. After speaking with your peers at the firm, you realize that other analysts are doing the same, and it seems to be common practice.

You are torn because you really like working for this manager and on this client, and want to make the best impression possible for future projects and promotions. Also, you know how important this client is to your firm, and you don’t want to risk losing the client because your team went over budget. On the other hand, you want to report your time honestly.

An Objective Model of Analysis for Moral Problems in Management

Resolving ethical dilemmas requires sound decision-making. To minimize the subjective nature of decision-making, the following objective model of analysis should prove helpful when confronted by a personal or professional ethical dilemma. Remember, this requires time and thought, but the more the model is applied, the better one will become in their ethical decision-making.

This model was developed by Dr. Paul Melendez, Department of Management and Organizations, The University of Arizona. August, 2004.

1. **Stakeholder Interests.** Consider the benefits and harms, rights exercised, and rights denied for the full society.
2. **Economic Outcomes.** Determine the net balance of benefits over costs for the full society.
3. **Legal Requirements.** Review the laws adopted by members of society to regulate the behavior of members of that society.
4. **Ethical Duties.** Evaluate the obligations owed by members of society to other members of that society.
Preparing for the Interview

The interview will be virtual via Zoom video conferencing software with professionals who either reside in or outside Tucson. The interview will include (1) your introduction/elevator pitch, (2) your educational and professional goals, (3) behavioral interview questions relating to the Eller College’s learning outcomes, and (4) a values case.
